RESULTS:			
Species: "Slate-colored" Fox Sparrow		Passerella iliaca schi	stacea schistacea
Date(s) of occurrence: Nov. 27, 2003 – Apr 2, 200	4 the observation of		
	Sex: n/a		Plumage: Adult/basic
Exact location: Feeders at 66 Casa Del Monte Ct.,	Glenwood Spring		
		Glenwood Springs	Elevation: 5942
			Elevation: 5842
Length of observation: Longest has been approx 5	5 minutes	Time(s) of observat	ion: 6:30 AM – 4:00 PM
Other observers who saw the bird(s) with you: Lin	da Vidal, Laurel W	illiams, Dick Filby	
Other observers who independently saw the bird(s): None		
Light conditions: Morning light has been best for			
window. The view is generally down on the bird b			lent light from the front, back, and sides.
Optical equipment used: Pentax 10x42 DCF WP I	Binocs, Bausche an	d Lomb Elite 80 scope	
Distance to bird(s) (estimated, unless otherwise no	oted): 50' - 10'		
Was (Were) bird(s) photographed? No		If so, are you submitti	ng photos?
Who took the photograph(s)?			
Habitat: We are in a riparian area along the Colora	ado River Primary	vegetation is gambel or	ak and sarvisberry with scattered pinyon
juniper, white fir, willow and box elders.	udo rerver. Trimary	vegetation is gamber of	a and salvisority, will solution physic
Behavior: Bird is a ground feeder with actions ver	ry similar to the Sp	otted Towhees that are r	egular here. The Fox Sparrow hops on
the ground with it's tail somewhat cocked and scra			
wag it's tail. The bird was with Spotted Towhees,			
DESCRIPTION – Bird is stocky, larger than Junco			
7". Tail long in proportion to the body. Bill dark a ring or wing-bars. Slaty gray head, nape, back, ar			
throat, breast, and belly with heavy brown specklin			
speckled with brown, with brown forehead and cro			
coverts. Weak brown malar stripe.			
Describe the bird's (birds') call(s) and/or song(s),	if noted: Did not v	ocalize
