CBRC FILE #: 2003-14Z			
RESULTS: (A) 6-1			
Species: (Common Name) Hooded Warbler		(Scientific Name)	Wilsonia citrina
Date(s) of occurrence: September 2, 2003			
Number of birds seen: One	Sex: Immature		Plumage: First year
Exact location: East of Animas River behind Ho	me Depot south of c	lowntown Durango	
County: LaPlata	Nearest town: Du	irango	Elevation: 6500 ft
Length of observation: About three minutes		Time(s) of observ	ation: Late morning (about 11 AM)
Other observers who saw the bird(s) with you: N	None		
Other observers who independently saw the bird		d not he releasted alth	ough I reported it locally
		· · · · · · · · · · · · · · · · · · ·	
Light conditions (quality; direction relative to bi	urd(s) and observers	position: Very good; su	in was left of bird and slightly behind me.
Optical equipment used: Elite 10x42			
Distance to bird(s) (estimated, unless otherwise	noted): About 75 ft.		
Was (Were) bird(s) photographed? No If so, are you submitting photos? N/A			
Who took the photograph(s)? N/A
