If you watch birds solely for your own enjoyment, a written description of your observations is unnecessary. But, if you have seen something unusual, and would like to share this with others, a written description is essential. Compilers of regional bird lists must insist that their records be scientifi- cally sound; future bird students those studying occurrences 50 years from now must have a written record on which to depend. By providing the verifying written description, you are employing a basic rule of the scientific method. We recognize that experienced field observers can provide important and reliable records, if supported by an adequate verifying description. Thus this request is an effort to perpetuate your record by obtaining concrete	DOCUMENTATION OF RARE BIRD SIGHTINGS FOR THE COLORADO FIELD ORNITHOLOGISTS' RECORDS Species: <u>Scalet Tomegen</u> ; <u>Pianga divacea</u> (Vernacular nome); <u>Cisiontific name)</u> If you watch birds solely for your own enjoyment, a written description of your observations is unnecessary. APPENDIX 11 Continued

Describe in great detail the bird which you saw. Emphasize particularly the field marks used to identify the bird, but include a complete description of the bird. Include size, overall shape, plumage and color pattern; details on shape or size of bill, wings, and tail. (Reference to its resemblance to field guide descriptions is not enough). Describe what you actually saw in the field. Medium -sized fasserine, about 8"long, Green above with grayish-green face. Cold yellow below. Black wings without any wingbars, Black tail, Overall "colder" toned than west. Tanager;

Describe the bird's calls or sounds, if heard; including method of delivery-i.e., from perch, in flight, etc.: Not heard

List similar species and how you eliminated them: Western Tanager lacks bleckwings, has wingbars. Summer Tanager has golden or Frangish tones, lacks black wings Hepatic "soranger, lacks black wings.

Prior experience with this and similar species: I've seen all tanagers in N.A., including a similar winter or last fall in Rocky Ford

This report was written from notes made during _____after____observation;
