Dear Sirs,

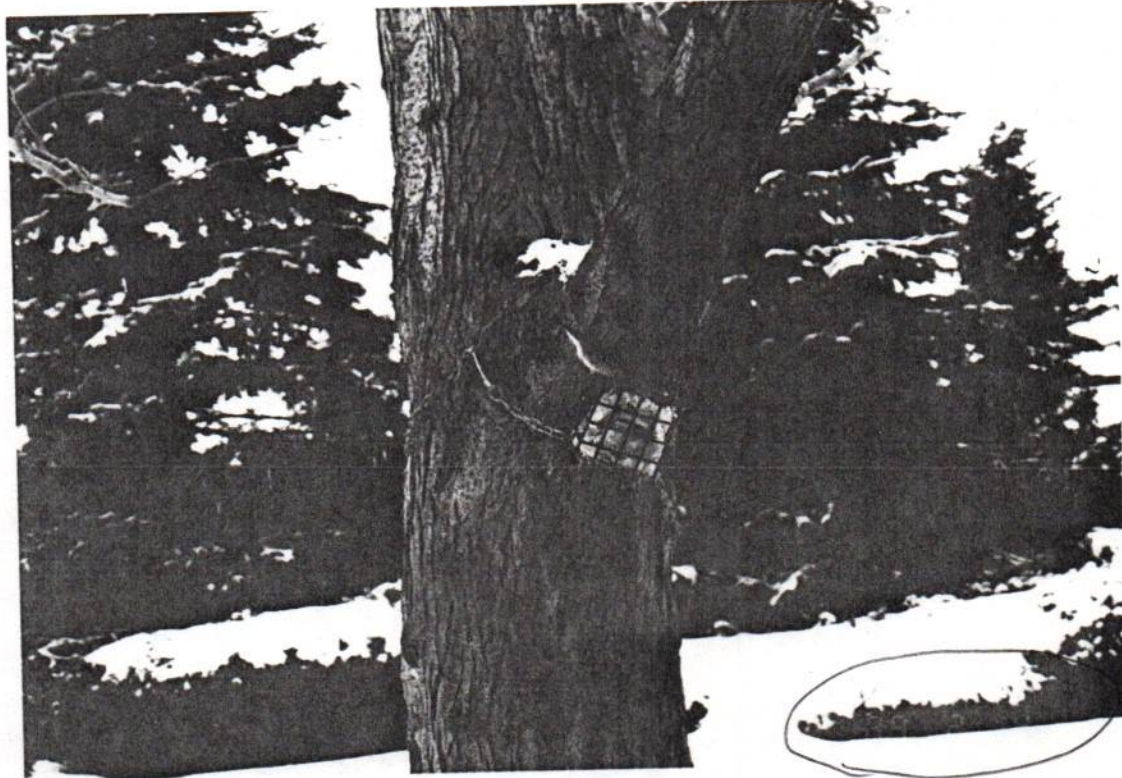

Enclosed please find a photograph of a Pine Warbler for your consideration taken by Phyllis Fischer on 2-14-89 in her Denver yard. Her address is on the envelope in which she sent me the photo. I understand that Mr. Duane Nelson also observed this bird during this period.

Yours truly,

David E. Martin

Details taken directly off photo (sent in other batch) - 2 white wing bars
yellow green unstreaked back, very bright yellow throat + upper breast. (adult ♂)
face pattern indistinct. Sorry you can't see the color - at least you
can see the shape, legs dark.

Duane Nelson
